Why Taipei Tutoring:

A normal prep school would force students to take two semesters worth of SAT courses to “master” the exam. The average cost would be over \$75,000. There would be no guarantee of quality or even personalized help for each student.

At Taipei Tutoring, you could finish your SAT preparation in as short as a few months, a semester, or even paced throughout the entire year.

You would get personalized help from quality tutors who both hold experience from Taipei prep schools and hold a MA degree from an accredited American university.

Further, the cost for the SAT Foundation course, plus the Elite Reading and Elite Writing courses would be **only \$56,000**. Thus, ensuring you save time and money without reducing quality!

ADD-ON: GRAMMAR BOOSTER

- ⌘ **10 hours** of grammar lessons and practice
- ⌘ To be paired based on students' availability
- ⌘ 10,000 NT (including refreshments at meeting spot)
